Intended Audience

This document is intended for S&C Advanced Reporting installers who will be setting up the Account Statistics report template. This report template should be used for any Account Statistics report that will be using a Stay Date filter. For optimal performance in Account Statistics, we suggest using the Stay Month or Stay Year filters. If the Stay Date filter is *required* this report template should be used as the starting point of your report. For more information on using the Account Statistics report template, please see the online help topic “S&C Advanced Reporting Subject Areas.”
